

MAXIMIZING WAREHOUSE MANAGEMENT EFFICIENCY WITH JD EDWARDS ENTERPRISEONE.

Capi Europe operates in a market known for rapidly changing trends. Existing IT systems were not able to keep up with the data demands necessary to support efficient production and stock management operations.

Accelerated three-month project implementation

Cost savings resulting from increased efficiency

Data-driven operational & strategic decision-making

CUSTOMER CHALLENGE

Capi Europe needed a JD Edwards partner to help them deal with stock management challenges. These challenges were created by a trend-driven market and a large catalogue of over 2500 products.

They also needed to improve the efficiency of existing warehouse management processes throughout their global operation and required a fast project delivery - the project needed to be 100% completed within 3 months.

CAPI EUROPE

Capi Europe is a brand leader in plant pots and garden items. They design and produce around 2,500 products for customers in over 60 different countries.

Founded in 1997 in the Netherlands, Capi Europe is environmentally conscious, using recycled materials and a unique method of rotation molding which saves 80% of energy use during production.

Annual revenues exceeding \$5 billion

Environmentally conscious

Design & Produce around 2,500 products

60 countries worldwide

WHY CAPI EUROPE CHOSE REDFAIRE INTERNATIONAL

Capi Europe needed a strategic partner who was willing to immerse themselves in the business, understand their processes and work with them to deliver a robust system.

The first step was a selection process, where they asked potential suppliers to propose methods and solutions that could be implemented quickly.

Partner requirements

- Fast delivery and clearly defined methodology.
- Deep JDE ERP technical skills.
- Specialists in the industrial manufacturing sector.
- ISO 27001 Accredited.

“The benefits are clearly visible. The Redfaire International team kept going until everything was perfect. In the next few years, we will be able to increase the level of insight and efficiency even further.”

Toine Van De Ven, General Manager, Capi Europe

OUTCOMES

Complete ERP Implementation within 3 months - delivery was accelerated by a combination of a virtual implementation environment, and a methodology to preconfigure the system and minimize the number of parameters that required definition.

The main benefit for Capi Europe is cost saving due to increased efficiency, and a reduction in the number of employees required. The company has full oversight of stock levels, with improved accuracy for warehouse numbers, and better tracking of item locations.

The system calculates the optimum storage location for order picking and bulk storage, for over 2500 items. As a result, Capi Europe can sell items while they are still in transit from Asia.

About Redfaire International

Redfaire International marries the reach and scale of a global entity, with the knowledge, insights and flexibility of local experts. You get one partner working under one methodology; managing your global projects, localizations and ongoing support.

When our clients succeed, we succeed, so we apply this value to everything we do to deliver best-in-class consultancy projects and customer success.
